ABOUT ME

An innovative and fast learning frontend developer with 4 years of experience building and maintaining responsive websites in the IT industry. Proficiency in Javascript, Typescript, React and API integration. Passionate about usability, reusable components and has working knowledge of Adobe XD, Figma.

WORK EXPERIENCE

Fullstack React | NodeJs Developer
TerzionDX [11/2022 – Current]

City: Istanbul
Country: Türkiye

- Leading a team of frontend developers in the company's main product delivery.
- Definition, description and distribution of tasks within the team.
- Code review.
- Bringing mock-ups to life using React components that are reusable and performant.
- Extensive use of Redux, Material UI, and React Router.
- Integrated into RESTful APIs to make the app dynamic.
- Optimizing website performance using Lighthouse and rectifying front-end-related issues.

Frontend Developer
Ischolar [11/2020 – 11/2022]

City: Cape Town (Remote)
Country: South Africa

- Took design ideas and transformed them into attractive, innovative, and successful web pages.
- Designed and built the User Interface of the mobile app with Ionic-React and TypeScript.
- Integrated OAuth with Firebase and AWS Cognito to enable secure user authentication and access control.
- Assisted the backend developer in ongoing development projects using Node.js and Express.
- Participated in code reviews.

Web Developer
Alshadows Technologies [10/2017 – 07/2019]

City: Yaoundé
Country: Cameroon

- Created customizable templates using HTML, CSS, and Bootstrap Template Engine.
- Built the website User Interface with Elementor WordPress.
- Carried out regular updates on the website.
- Made changes to templates from Theme Forest to serve as a customizable template for clients.
- Assisted new and existing clients with content on their websites.
